Transferred Care to Another EMS Unit	0		
Call Volume/ Missed Calls by Year			
2018	495	21	
2019	507	26	
2020	484	12	
2021	598	20	
2022	210	12	

As you can see we are remaining busy and calls are starting to pick up as nicer weather. We have now started to have some difficulty filling our shifts as people are starting to get jobs at departments that offer benefits. But we have been lucky as we have had people to fill these empty spots but there is no way to see if they will continue as better weather. We have no signed agreement with Waldoboro EMS that if a Medic is needed the cost will be what they have been recently charging us as they had increased their rate each year. As of July 1st when we are unable to handle a second call they will be charging for a second call, with all that said going off last year's numbers this will cost the service \$32,000. There are more EMS services starting to charge as they are having difficulty to fill their shifts. When we need their rescue it leaves their town(s) open for missed calls.
