2022	455	20		

Another busy month has passed, if we continue at this rate we run just shy of 700 calls this year. We are also having an increasing amount of mutual aid calls as other EMS agencies struggle with staffing and like us they too also have an increase in call volume. As you also can see we have already missed 20 calls for the year, that is the total for last year and we still have 4 months to go. This is not because the rescue did not respond. This is due to the fact the rescue is already on a call when a second one comes in.
