Once again as I have said many times this was another busy month and now year. We finished the year with running just under 600 calls. This is the busiest that we have ever been and it shows no signs of stopping. The fly car has been working out, he had a day with several calls at the same time and it was at shift change so the incoming shift to the fly car and was able to first respond to medical and assist the patient and cancel another service coming to help with the left assist. The first call that it did was a paramedic intercept in Hope for Northeast Ambulance. We did all this with still struggling to maintain staffing, as some are going to school or starting new jobs. We are able to do what we do because of the people that are willing to work and dedication to the area. I look forward to continuing working with you and them in the upcoming year.
