2022	613	98	27	5	
2024	114	114	7	7	

It has been another busy month for us here. As you can see that we are above or current yearly average for calls. As we all know that this can change at any point. I am hope that our second rescue with be coming shortly. There has been a delay with the letter of the rescue as the company that it was bought from is working on several different ones at the same time. Once it is here it should take us no time to get it into service. The above incident patient disposition is blank due to the fact the Maine EMS has changed our run reporting system and I have not fix the report that I use to pull the data, hoping to have that fixed for the next report. As always we like when people from the public can come in a see us, we love showing off all our equipment. With spring well on its way please remember to be careful when on the ice, if there is any left.
