I hope everyone had a safe and happy holiday season. This year has started off somewhat busy for us, there has not been any unusual as of late. Call volume and all data that relates to it seems to be in the normal range for us. Staffing for us and been pretty good will most of the week having a medic on. I would say that on average there is about 2 to 3 days that only have part or no medic coverage, but on those days we have an AEMT. There have been a few but not many that only have a EMT. This has been greatly inhanced due to people uping their license levels. Because of this we gained two EMT's an AEMT and two medics. These people worked hard and are a great addition to the service. As always if there are questions please let me know.
