July was another busy month for us, and we double the call volume that we normally do this time of year. As you can see, we helped are neighbors out as well as they were busy. We have also had an increase in missed calls, as calls for our service increase. We a lucky that we can fill our schedule the way that we do, most services are having difficulty to fill vacant shifts. Low pay and lack of any form of benefits is the reason for this. We are trained to save people's lives but can easily lose medical license or worse. Instead, we can work at McDonalds, Domino's Pizza or Dunkin Donuts earn the same amount and have benefits as well. There has been a great loss of people across this field because of this. Better pay, benefits and less stress.
