

TOWN OF UNION *Maine*

Normally July is a hot and dry month, and all the grass turns brown and crunchy. This July was not dry at all, so we've continued to mow steadily. Between the mowing and vacation days we haven't been able to get as many projects crossed off the list as I would have liked to.

One project that we were able to cross off the list was the installation of eight new park benches on the Common. The new benches are six feet long and were strategically located throughout the green space. I think they look great and add to the esthetics of the Common area while giving residents a comfortable place to sit and relax.

We were also able to get a stretch of Butler Rd and Carroll Rd ditched and began to ditch and replace driveway culverts on Barrett Hill and will continue to do so into next month.

Respectfully submitted,

Matt Elwell - Public Works Director

One of the new park benches on the Common overlooking the monument.
