2019	507	26		
2020	484	12		
2021	598	20		
2022	156	10		

This has been a steady month for us. We were needed a few times outside our normal coverage area as other EMS services were busy. But we too needed have a few times where we needed other EMS services to cover calls for us as we were already tied up on a call luckily we have first responders around that were able to get on scene and start treatment until those other services arrived. As you can see under missed calls we already halfway to the total number of missed calls for last year and we are just a quarter of the way through. We attempting to get a grant for a CPR machine but so far we have been unsuccessful and would love to have help in this process. At Washington meeting they passed the their part of the ambulance budget without question, we also had a few of their citizens stand up and speak in favor of us and the work that we do.
